# Welcome

to the 25<sup>th</sup> annual J&C Simmentals Bull Sale. This past year has been an extremely tough one for those in the agriculture business with flooding, fires, early snows, lots of rain and drought conditions. We are thankful to be able to celebrate our 25<sup>th</sup> sale and thankful for our customers as well. Ag has never been a business for the faint of heart. And so, we thank you for your continued interest in our genetics and for supporting us. We look forward to fulfilling your seedstock needs. We have more bulls in the offering with higher EPDs for weaning and yearling weight than ever before. This is a result of modifying our sire selection to better suit our customers needs. We have some fancy bulls with a lot of look; we have some fast growing, rugged bulls bred to add pounds for the commercial breeder; and a few reds - because who doesn't like a redhead now and then.

We have a nice selection of open heifers with some being halter broke and some being tie broke. This years National Junior Simmental Show is going to be held in Grand Island and should be bigger and better than ever. If you are thinking about entering the show, please check out these opens. If you are in the market for some replacement heifers, we can fill that need as well. We did not consign any opens or breds to a female sale this fall so they are in the offering here.

The American Simmental Association has honored Bob with the Golden Book Award this year. Thank you to J.W. Brune for his assistance with this. We are grateful that the Association has recognized a 40 year body of work of supporting and selling Simmentals. Bob's passion for cattle, the agriculture industry as well as the people involved are emphasized and celebrated every year at our sale. We are humbled and honored for Bob to receive the award.

Please plan to join us on January 25<sup>th</sup> in West Point Nebraska. West Point Livestock is a great facility to host our sale and we value that partnership. The cattle will be in pens outside for viewing all day Friday with the sale held inside the arena on Saturday. Lunch will be served! As always, please give either myself or Clark a call if you have any questions. If you would like a preview at the farm, our door is always open. On behalf of our family and consignors, thank you for your interest and see you on the 25<sup>th</sup> for our 25<sup>th</sup>!!

Sincerely,

Jay Volk for J&C Simmentals

**Dec/Jan** – Ivermectin Pour On/BVD PI tested

**Bred Heifers** are Bangs Vaccinated & Bovishield Gold FP/Sept 1 Scour Boss 9 All bulls & females tested BVD Free.

**EPDs:**

Please note the EPDs updated daily at the American Simmental Assoc. may change from the time the sale catalog is printed until registration paper is transferred.

**Bulls:**

The J&C sale offers \$100 per head cash to buyers of bulls loaded out sale day or day after sale. Free delivery to Nebraska buyers. Free delivery to buyers from other states within 250 miles radius of J&C, provided the total purchase price is \$1,500 or more. Cooperation to other states. J&C will start delivery March 15th. After April 15th arrangements needed for extended stay. All bulls will be semen checked Mid-January by Vogler Semen Center.

**Air Transportation:**

Omaha Eppley at Omaha. Has all major airlines. About 75 miles from sale. Fremont Municipal Airport, Airport Road, Fremont Aviation, Inc. 402-721-4520. In operation 7 days a week. 5,500 ft. access small jets. 45 minutes from West Point.

**Terms & Conditions:**

All cattle are to be settled for at sale site office. They sell fully guaranteed and sell under terms & conditions of the American Simmental Association.

**Insurance:**

Insurance will be available from sale clerks in the office. Billing for insurance will be done by American Livestock Insurance. Cattle are considered insured when request is made at the sale office.

**Liability:**

Neither the sale host J&C & Guest Consignors, Auctioneer or West Point Livestock assume any liability for any accidents which may occur.

**Bids:**

Satisfaction guaranteed on sight unseen purchases. Feel free to send bids to Jay Volk, Clark Volk, Sale Consultants, Auctioneer or Field Publication representatives.

**Free Beef Lunch:**

will be provided by J&C sale, under the direction of Jeanette Volk. Serving will start at 11:00 AM and close 1 hour after sale. Serving will be in auction market and lunch room. Please take your plate to auction arena as lunch room is small.

**Internet Bidding:**

Bidding online may be done through Livestock Marketing Association (LMA). Register at [www.lmaauctions.com](http://www.lmaauctions.com) for a free account, go to West Point Livestock Sale and request a bidder number. Request a bidder number or call 402-372-2493 and ask for LMA Auction. Register for your bidder number several days in advance to ensure you receive it in time for the sale.

**Bull Guarantee:**

All bulls are guaranteed for breeding soundness and injury for the first breeding season (90 days from turn out). If a bull is injured, a satisfactory replacement will be provided or a credit will be issued for next year's sale for the bulls full purchase price, less salvage received, with a written vet report. Please contact us as soon as possible to receive credit.

Purebred baldy out of the great W/C Miss Werning A343 donor! She is a maternal sister to the ever so famous 8543U donor for Werning Cattle Company. This bull brings the power from Front to back along with the extra fancy eye appeal. He looks just like his daddy more and more everyday W/C Loaded Up 1119Y who sold for \$240,000 for 1/2 interest. I believe he will go on to produce just like him. Producing length and thickness that is sure to pack on the pounds. His daughters will be the ones you will want to keep, as they will be extremely feminine and structurally correct to go on and make amazing cows. The maternal strengths represented in this pedigree will put this outstanding stud on the short list for every cattlemen! Retaining 1/3 semen interest.

- This guy's mamma could possibly be the best purebred cow that resides at Riley Farms. G214 is not the EST bull, however he does not disappoint in any one category. He is an up headed, good built, balanced individual that is loose in his skeleton. He has plenty of depth and body, a generous amount of spread over his top and he is stout and square from behind. Moderate and usable kind of cattle here. In terms of buying a bull that won't make a throw away, I think he makes the short list.

This has a very intriguing pedigree. He is out of the hottest sire right now Relentless, and his mother is a full sister to Chopper. His prodigy will have the look and style to compete in the show ring but still hang some great numbers.

This star headed bull is out of my favorite first calf heifer on the farm. He is an Anchor son you like from any angle. He's long, deep, stout hiped and extra wide from behind. It is hard to build them this stout and sound while being this good-looking up front. Another calving ease deluxe bull that will stamp his progeny with a good build, a little extra muscle and a killer look. His calves will hit the ground running and gain well to put money back in your pocket. Don't miss him.

Miss Valerie has been a joy to have this year. My 9-year-old daughter Emerson broke and showed her this summer. She has an extremely quiet and has a sweet disposition. A 5-year-old could show her and get along just fine. With all that being said the quality of this heifer is tremendous. She has rib, belly, power, and is as sound as you can make one. Her zipper front end for a purebred is hard to find.

Gwyn is a beautiful baldy heifer out of Pays to Believe full brother. Her mother is an Uprising out of the Perfection S116 cow. We feel she will have a great show carrier but importantly have son or daughter that will make you money.

This little baldy has been a surprise for day one. She is out of a first calf heifer that we were going to sell as a bred heifer last year on the New Direction sale but the vet said she didn't stick to her due date. We kept her back because we do not sell bred heifers that are bull bred. The vet was wrong! This is a 20-20 daughter out of a Jack Around x Perfection cow. It has been fun watching this young show heifer calf grow up.

Where do I begin with this heifer? If you are looking for a dead broke one that has no holes in her, this is it. She definitely needs someone to drag her around Grand Island this summer at the Simmental Junior National show. She has been a standout since day one and won't disappoint.

JWS Minnie G6

# ASA Sale Terms & Conditions ...

**BIDDING AND APPLICABLE LAW:** All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

**ANNOUNCEMENTS:** Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

**TERMS:** Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

**PURCHASER'S RISK:** Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

**HEALTH REQUIREMENTS:**

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.

2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

**CERTIFICATE OF REGISTRY:** Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

**IDENTIFICATION:** Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

**AUTHENTICITY OF PEDIGREE:** When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

**BREEDING GUARANTEES AND DEFINITIONS:**

1. Females are guaranteed to be breeders, with the exception of:
  - a) Female calves sold at side of dam
  - b) Injury or disease occurring to the animal after time of sale
  - c) Gross negligence or willful misconduct on the part of the purchaser
  - d) Females used in ovum transplant after time of sale
  - e) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
  - a) Bull calves sold at side of dam
  - b) Injury or disease occurring to the animal after time of sale
  - c) Gross negligence or willful misconduct on the part of the purchaser
  - d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open female is a non-pregnant animal.
8. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

**PRIVILEGE OF PURCHASER TO EXAMINE:** The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of an female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

**EMBRYO TRANSFER:**

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.

2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

**HORNED-SCURRED-POLLED: DEFINITIONS:**

1. **HORNED** — An animal with a horn growth affixed to the skull that has or has not been removed.
2. **POLLED/SCURRED** — An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. **POLLED** — An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. **SMOOTH POLLED** — A smooth-polled individual has no scurs and does not develop scurs later in life.

**GUARANTEES:**

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

**OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:**

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

**GENETIC TESTING AND TraitTrac STATUS:** Sellers must identify the TraitTrac status and the results of any qualitative genetic testing performed on any animals or genetic material offered for sale. The ASA considers it an unethical practice to misrepresent or fail to disclose the TraitTrac status or qualitative genetic test results of any animal or genetic material.

**DISCLOSURE OF MATERIAL INFORMATION:** Sellers must disclose all material information concerning any animal or genetic material offered for sale. For the purposes of these Sale Terms and Conditions, "Material Information" is defined as any information which would be likely to affect the value of the animal or genetic material if the information were known to the public. Material Information includes, but is not limited to, information related to genetic tests, blood tests, ultrasound pregnancy results, disease tests, pregnancy and fertility test results, information related to the sex and age of in utero calves or embryos, and information related to the fertilization status of in utero calves, including whether the calf was conceived via artificial insemination or natural service. The ASA considers it an unethical practice to misrepresent or fail to disclose any Material Information concerning an animal or genetic material offered for sale.

**LIMITATIONS OF OBLIGATIONS:** These sale terms and conditions constitute a binding legal obligation between the buyer and seller of any animal or genetic material sold under these terms and conditions. However, the ASA, its directors, officers, employees and agents do not assume any obligation, legal or otherwise, to enforce the sale terms and conditions agreed to between buyer and seller.

*Advanced Conception cattle mineral uses advanced levels of zinc, copper, manganese and cobalt chelated minerals. They work side by side to create a healthier, more productive cow.*  
**Zinc** – Advanced levels for reproductive health, a strong estrus cycle and improved conception rates.

**Copper** – Advanced levels help with healthy nerve fibers essential to reproductive performance.

**Cobalt** – Advanced levels help the rumen process B12, essential for microbial propionate production in the rumen and the conversion of propionate to glucose in the liver.

**Manganese** – Advanced levels play an important role as an enzyme activator.

**Iodine** – Advanced levels enhance immunity effective in controlling foot rot, pinkeye and boosting overall hoof health.

*Feed free choice  
2-3 oz./head/day*

*All minerals can be customized to meet your cattle's needs.*

### Also Available:

Advanced Heat • Advanced Balancer • Advanced Gain Stocker

A free-choice vitamin and mineral supplement for beef cattle to provide a healthier reproductive track for a successful breeding season when fed 60 days pre-calving through 60 post-breeding.
